

WTPS Gage

Measure Undercut 0.010 Deep

Undercut shall be no more than 0.010 in. (0.25 mm) deep when the weld is transverse to the primary stress in the part that is undercut.

From G.A.L. Gage Company, the WTPS Gage is precision made from stainless steel all markings and dimensions are laser engraved for ease and clarity when reading.

Gage set comes with a precision ground calibration block as shown above; each block has been surface ground to 0.0005 tolerance for exceptional accuracy.
